Quotation QTN-2504625 | Università del Piemonte Orientale

Date: 03.11.2025

Valid until: 01.02.2026

Dear Fabiola Stolfi

Thank you very much for your interest in Microsynth's products and services. We're pleased to provide you with the following quotation.

Your Demand

Synthesis of the oligonucleotides according to file "20251103_Stolfi_MicrosynthUploadFormDNA (6)"

Our Offer

Item	Cat. no	Quantity	Your price	Amount
DNA Nucleotide, 0.04 µmol Scale	0050	220.0	€ 0.37	€ 81.40
Probe (5'FAM-3'TAMRA), 0.2 µmol Scale	0113	5.0	€ 145.16	€ 725.80
Aliquoting, 5 nmol	0770	5.0	€ 25.81	€ 129.05
Express Courier Service Zone 2 (Next Day, with Tracking)	1166	1.0	€ 16.00	€ 16.00
Net Total				€ 952.25
Additional Discount (50 %)				€ -476.13
Total				€ 476.12

General Conditions and Remarks

- All prices are net prices without VAT.
- All orders are subject to Microsynth's standard terms and conditions which can be found at <https://www.microsynth.com/Terms-ch.html>
- **To order this offer you can log in to your webshop account and click on "Quote" next to your profile picture. Click on "to cart" to check and release the order.**
- 50% discount is valid for a single order only, first order, not cumulative, valid once per research group.

Certification and Quality

Microsynth, founded in 1989 and headquartered in Switzerland, is a leading European provider of nucleic acid synthesis and analysis services. We are committed to continuously improving our production processes and maintaining the highest quality standards across all operations. All Microsynth branches are certified according to **ISO 9001:2015**. In addition, **Microsynth AG (Balgach)** holds the following accreditations and certifications:

- **ISO/IEC 17025:2017 (STS 0429)** accreditation for NGS, Sanger sequencing, and fragment length analysis.
- **GMP certification by Swissmedic**, confirming the compliance of all genetic analysis platforms with GMP standards for quality control of medicinal products as a contract laboratory.
- **EN ISO 13485:2016** certification for the production and distribution of nucleic acids and components for medical use and the provision of related activities.

Customer Support

At Microsynth customers have direct access to experts in the field either by email or phone (see also <https://www.microsynth.com/were-here-to-help.html>).

I hope this quotation meets your expectations. If you have any questions regarding the quotation, please do not hesitate to contact me.
